# TO THE AID OF GOULD

With Help From Standard Oil, Magnate Would Hold Control of Roads.

WILL DEPOSIT BONDS WITH PROTECTIVE COMMITTEE

Action Would Give Railroad President Close Control of Eastern Lines.

According to advices from New York, the Rockefeller interests are reported to have come to the aid of Gould, and that by this support the railroad magnate will remain in control of his lines. The report is in substance that the head of the Standard Oil corporation would, in all probability, deposit the first mortgage bonds of the Wabash Pittsburg Terminal Railway company with the protective committee, of which James N. Wallace, president of the Central Trust company, is chairman.

Should this aid be fortneoming, it is believed that George J. Gould will rebelieved that George J. Gould will remain in control of that company, as
well as of the Wheeling & Lake Erie,
notwithstanding the report of a few
days ago that the Eastern end of the
Gould system was in a chaotic condition. With regard to the Wheeling &
Lake Erie, railroad interests are of the
opinion that it will have to be reorganized also, and that ultimately the two
companies will be consolidated.

As one company, the Wheeling &

companies will be consolidated. As our company, the Wheeling & Lake Eric and Wabash-Pittsburg Terminal would have a much stronger basis for reorganization. The Wheeling road is an argent need of funds to complete its double tracking programme, which would enable it to care for the tonnage expected from the Pittsburg steel interests and or the Pittsburg steel interests and or the Pittsburg steel interests.

Could Exercise Closer Control.

vertheless, an effort is still being roads to obtain an extension of the SS, 900,000 gold notes of the Wheeling & Lake Eric road, which are guaranteed by the Wabash railroad and which ma-ture August 1. The notes are closely held by a limited group. But it is in-tinated by bunkers familiar with the condition of the property that a reor ganization may precede the note exten-

Should the Wabosh-Pittsburg Terminal Entiway company be combined with the Whoeling & Lake Eric road, whose majority stock it controls, it is held that this arrangement would greatly strengthen the position of the Wabash system proper. The Wabash would be placed in citation of the Managarian control of the Ma he placed in a situation where it could exercise a closer control over those two lines, with which it is affiliated.

jective point, and the country northwest of there as the ultimate destination.

G. W. Holdredge, general manager of the C. B. & Q., has now under consideration this proposed new line, which will run from Hudson to Greeley and from Greeley to Fort Collins. Hudson is on the main line of the Burlington, thirty miles northeast of Denver. Starting from this point, the projected line would probably follow Box Elder creek a short distance and then proceed north to Greeley, and eventually follow the Cache la Poudre river into the country northwest of the latter town.

### CHANGES IN SHORT LINE TIME CARD SCHEDULE

Effective June 7 the eastbound Los Angeles Limited will leave Salt Lake City at 12:20 p. m., or five minutes earlier than at present. No 19, from Butte and Portland, will arrive in Salt Lake City at 8:20 p. m., or forty minutes earlier than at present. This train will also bring in the Overland Limited connection from the east, so that the train from the east will arrive five minutes later than at present. No. 14, which arrives in Salt Lake City at 6:15 p. m., under the present connection for the Overland Limited from the east, will be made a local between Ogden and Salt Lake City, arriving here at 6:50 p. m. Local No. 4 will arrive in Salt Lake City, arriving here at 6:50 p. m. Local No. 4 will arrive in Salt Lake City at 9:10 p. m., or five minutes later than at present. # ROCKEFELLER COMES HIGHER RATES WILL NOT AFFECT PUBLIC

But They May Mean Something Controversy Will Be Averted to the Jobber and Merchant.

Fred A. Mann, general traffic manager of the Salt Lake Route, is quoted in the East in an interesting discussion of freight rates. Mr. Mann uses as the basis of his thesis what is known as the Hannibal rate. Hannibal is a town in Missouri, on the Mississippi. It is of no commercial importance, but it is a large factor in the fixing of rail road rates in a large part of the United States. This comes about by reason of its being the Mississippi crossing nearcest to Kansas City. St. Louis is seventy-eight miles away from Kansas City, yet freight by way of St. Louis gets the benefit of the Hannibal rate to Kansas City and beyond.

is City and beyond. Mr. Mann explains the tariffs as fol-

Traffic men call the rate from New York to Chicago 100 per cent. The first class rate ds 75 cents per 100 pounds. Other rates are made with that as a basis, For instance, the St. Louis rate from For instance, the St. Louis rate from New York is 116 per cent, or St cents on first-class frieght. Other points on the Mississippi river—Quincy, Hannibal and so on—pay the same rate from Chicago as does St. Louis.

it will not materially affect the price of merchandlise to the consumer. Suppose too are accustomed to brying shoes for which you pay \$6. The freight rate on shoes is raised as much as 50 cents a 100 pounds, which means perhaps two or three cents on a pair of shoes. Do you suppose the shoe merchant would add that to the price of his shoes? Of course not.

# NEW RULE RELATIVE TO STREET CAR TRANSFERS

Conductors Will Ask Passengers When Fare Is Paid if They Desire One.

A new order issued by the street raila new order issued by the street ran-road company is to the effect that be-ginning June 10 conductors will ask passengers at the time they pay their fare if they want a transfer, provided the car is not crowded, and in the event Mention was made in Wednesday morning a Tribune of a contemplated cutoff by the Union Partific from Platteville Colo. to Tie Siding Wyo. by way of Fort Collins. But other roads have an eye on Fort Collins besides the Harriman road. ### NEW LINE PROPOSED IN SOUTHERN UTAH

A company of Utah and Los Angeles capitalists was formed recently to develop the coal deposits on the line between Iron and Washington counties and now the construction of a railroad is being discussed. The proposed line would probably run from Lund, on the Salt Lake Route, to Iron Springs, with branches to Harmony on the south and Coders to Harmony on the south and Coders. es to Harmony on the south and Cedar City on the east. Citizens of Cedar met in mass meeting

Citizens of Cedar met in mass meeting recently to consider a proposition which in brief was that the people guarantee a right-of-way, the grading of the roadbed and the furnishing of ties. The citizens unanimously agreed to guarantee the right-of-way through all private lands and also the building of the grade in return for half cash and half bonds of the road with a bonus of stock of the parvalue of the bonds. The ties they could not furnish as there is no timber except on the forest reserve, and it was considered doubtful if a Government permit could be secured.

# COMMISSION MAKES DECISION ON RATES

and Uniformity in Railroad Practice Established.

WASHINGTON, June 3 .- It is expected that a decision rendered today by the Interstate Commerce commission in the matter of released rates will tend to eliminate much troublesome controversy and make for uniformity in railroad practice. The opinion handed down by Commissioner Lane states these

eonclusions:

'If a rate is conditioned upon a shipper assuming the risk of loss due to causes beyond the carrier's control, the condition is valid. If a rate is conditioned upon the shipper assuming the entire risk of loss, the condition is void as against loss due to the carrier's negligence or other misconduct.

'If a rate is conditioned upon the shipper agreeing that the carrier's lia-

shipper agreeing that the carrier's lia-bility shall not exceed a certain spe-cific value, the stipulation is valid when loss occurs through causes beyond the carrier's control, even when loss is due New York is 116 per cent, or 37 cents on first-class frieght. Other points on the instellant frieght. Other points on the Mississippi river—Quincy, Hannibal and so on—pay the same rate from Chicago as does St. Louis.

The through rate from Chicago to the Mississippi and the rate for the Mississippi and the rate from there across to the Mississippi and the rate from there across to the Mississippi and the rate from there across to the Mississippi and the rate from there across to the Mississippi, including the through rates from the East. It will be a difficult matter to increase rates between New York and Chicago and St. Louis, in this proposed increase of freight rates new talked of. What traffic men of that section would like to do would be to increase that Hannibal rate from 50 cents to 60 cents a 160 pounds, but they cannot do it without the consent of the Missouri railroad commissioners.

The enthre structure of freight rates is extremely complicated A climage at one point affects many others. The railroads are confronted with the necessity of increase their incomes. But it is a difficult matter to raise freight rates.

An increase in rates means nothing to the general public. It may mean something to the jobber and the merchant, but it will not materially affect the price of merchandise to the consumer. Suppose you are accustomed to boring shores for means and maditional charge of 20 per cent shall it will not materially affect the price of merchandise to the consumer. Arthur Pryor, the great trombonist whom Salt Lakers are proud to call "a Salt Lake boy," has for some time been directing a military band of his own. It is noted in the Philadelphia papers that Mr. Pryor and his fine musical organization are giving concerts at Willow Grove park, Philadelphia, during this season.

Held's band have an official programme for their weekly concerts at Liberty park. The leaflet is made very attractive with a pictorial cover in colors. And, by the way, the plates from which the color work is printed were made by The Trib-nne's engraving department.

From the Lyric comes the announcement that on next Sunday afternoon a complete change of programme will be made. Clara Throph, with her songrand dances Jim Jackson, with his funny courtship, the Excelsior quartette, Dixle Dan and others will make way for a card equally interesting and entertaining. The usual matines and evening performances will be given every day until further notice. 1 3 4

The Burgess company continue to draw the people to the Grand Theater, and will hold the boards with "Neille, the Beautiful Cloak Model," during the remainder of this week, with a matine on Saturday afternoon. Tonight at 8:30.

When the Orpheum management concocted this week's bill they builded better than they knew, perhaps, but it is a sufficient compliment to their judgment to find the house packed to see and hear the good things presented. Without a doubt, it is among the very best programmes that has ever been given at the place. This being the last vaudeville week of the senson, everybody seems determined to take it in. This afternoon at 2:15 and this svening at 8:15.
